Customer accepts Software upon delivery.

5. UPGRADES

Software Versions or maintenance updates, if available, may be ordered separately or may be available through Software Support. I.R.I.S. reserves the right to require additional licenses and fees for Software Versions or separately purchased maintenance updates or for Use of the Software in conjunction with upgraded Hardware or Software.

When Customer obtains a license for a new Software Version, Customer's Software License for the earlier Version shall terminate. Software Versions are subject to the license terms in effect on the date that I.R.I.S. delivers or makes the Version available to Customer.

6. LICENSE RESTRICTIONS

a. **Use Restrictions.** Customer may not exceed the number of licenses, agents, tiers, nodes, seats, or other Use restrictions or authorizations agreed to and paid for by Customer. Some Software may require license keys or contain other technical protection measures. Customer acknowledges that I.R.I.S. may monitor Customer's compliance with Use restrictions and authorizations remotely, or otherwise. If I.R.I.S. makes a license management program available which records and reports license usage information, Customer agrees to appropriately install, configure and execute such license management program beginning no

later than one hundred and eighty (180) days from the date it is made available to Customer and continuing for the period that the software is used.

b. **Copy and Adaptation.** Unless otherwise permitted by I.R.I.S., Customer may only make copies or adaptations of the Software for archival purposes or when copying or adaptation is an essential step in the authorized Use of the Software. If Customer makes a copy for backup purposes and installs such copy on a backup device, unless otherwise provided in the Transaction Documents, Customer may not operate such backup installation of the Software without paying an additional license fee, except in cases where the original device becomes inoperable.

If a copy is activated on a backup device in response to failure of the original device, the Use on the backup device must be discontinued when the original or replacement device becomes operable. Customer may not copy the Software onto or otherwise Use or make it available on, to, or through any public or external distributed network.

Licenses that allow Use over Customer's intranet require restricted access by authorized users only.

c. **Copyright Notice.** Customer must reproduce all copyright notices that appear in or on the Software (including documentation) on all permitted copies or adaptations. Copies of documentation are limited to internal use.

d. **Designated System.** Notwithstanding anything to the contrary herein, the Software License for certain Software, as identified in Transaction Documents, is non-transferable and for use only on a computer system owned, controlled, or operated by or solely on behalf of Customer and may be further identified by I.R.I.S. by the combination of a unique number and a specific system type ("Designated System") and such license will terminate in the event of a change in either the system number or system type, an unauthorized relocation, or if the Designated System ceases to be within the possession or control of Customer.

e. **Changes.** Customer will not modify, reverse engineer, disassemble, decrypt, decompile, or make derivative works of the Software except as mandatorily provided under applicable law where the Software is used. Where Customer has such mandatory rights, Customer will provide I.R.I.S. with reasonably detailed information regarding any intended modifications, reverse engineering, disassembly, decryption, or decompilation and the purposes therefore.

f. **Use for Service Provision.** Extending the Use of Software to any person or entity other than Customer as a function of providing services, (i.e.; making the Software available through a commercial timesharing or service bureau) must be authorized in writing by I.R.I.S. prior to such use and may require additional licenses and fees.

7. LICENSE TERM AND TERMINATION

Unless otherwise specified in a Transaction Document, the Software License granted Customer will be for the whole duration of the legal protection of the intellectual property rights concerned, provided however that I.R.I.S. may terminate without judicial intervention nor indemnity the Software License upon notice for failure to comply with this Agreement. Immediately upon termination of the Software License or upon expiration of any individual limited term license, Customer will destroy the Software and all copies of the Software subject to the termination or expiration or return them to I.R.I.S. at Customer's costs and risks. Customer shall remove and destroy or return to I.R.I.S. any copies of the Software that are merged into adaptations, except for individual pieces of data in Customer's database. Customer may retain one copy of the Software subsequent to termination solely for archival purposes only. At I.R.I.S.' request, Customer will certify in writing to I.R.I.S. that Customer has complied with these requirements.

8. LICENSE TRANSFER

Customer may not sublicense, assign, transfer, rent, or lease the Software or the Software License to any other party except as permitted in this section. Except as provided in subsection C.6.d. above, I.R.I.S. Branded Software licenses are transferable subject to I.R.I.S.' prior written authorization and payment to I.R.I.S. of any applicable fees or compliance with applicable third party terms. Upon transfer of the Software License Customer's rights under the License will terminate and Customer will immediately deliver the Software and all copies to the transferee. The transferee must agree in writing to the terms of the Software License,

and, upon such agreement, the transferee will be considered the “Customer” for purposes of the license terms. Customer may transfer firmware only upon transfer of the associated Hardware.

9. COMPLIANCE

Customer agrees that I.R.I.S. may audit Customer’s compliance with the Software License terms. Any such audit would be at I.R.I.S.’ expense, requires reasonable notice, and would be performed during normal business hours. If an audit reveals underpayments then Customer will immediately pay I.R.I.S. such underpayments together with the costs reasonably incurred by I.R.I.S. in connection with the audit and seeking compliance with this sub-section.

10. WARRANTY

I.R.I.S. Branded Software will materially conform to its Specifications. If a warranty period is not specified for I.R.I.S.

Branded Software, the warranty period will be ninety (90) days from the delivery date.

11. VIRUS WARRANTY

I.R.I.S. shall make its best efforts in order to ship physical media containing I.R.I.S. Branded Software free of viruses, but without any warranty. The Customer is supposed to check the absence of viruses before installation or use thereof.

12. WARRANTY LIMITATION

I.R.I.S. does not warrant that the operation of Software will be uninterrupted or error free, or that Software will operate in Hardware and Software combinations other than as expressly specified by I.R.I.S. in the Product Specifications or that Software will meet requirements specified by Customer.

13. EXCLUSIVE REMEDIES

If notified of a valid warranty claim during the warranty period, I.R.I.S. will, at its option, correct the warranty defect for I.R.I.S. Branded Software, or replace such Software. If I.R.I.S. is unable, within a reasonable time, to complete the correction, or replace such Software, Customer will be entitled to a refund of the purchase price paid upon prompt return of such Software to I.R.I.S.. Customer will pay expenses for return of such Software to I.R.I.S. and I.R.I.S. will pay expenses for shipment of repaired or replacement Software to Customer. This sub-section C.13. states I.R.I.S.’ entire liability for warranty claims.

14. FREWARE AND OPEN SOURCE

Notwithstanding other statements in this Agreement, Software licensed under Open Source or freeware licenses is provided “AS IS” without any warranties or indemnities of any kind. Software provided under an Open Source license is governed solely by such license terms which will prevail over this Agreement.

Transaction Document. If Customer fails to provide such access (including remote connectivity through an I.R.I.S. approved communications line), resulting in I.R.I.S.' inability to provide Support, I.R.I.S. shall be entitled to charge Customer for the Support call at I.R.I.S.' service rates. Customer is responsible for removing any Products ineligible for Support to allow I.R.I.S. to perform Support.

Branded Products that have an influence on the Use and Support of or are integrated in I.R.I.S.-Branded Products supported by I.R.I.S. under a Transaction Document. I.R.I.S. may also provide Support for certain non-I.R.I.S. Branded Products. 7. SUPPORTED SOFTWARE

Customer may purchase available Support for I.R.I.S. Branded Software only if Customer can provide evidence it has rightfully acquired an appropriate I.R.I.S. license for such Software. I.R.I.S. will be under no obligation to provide Support due to any alterations or modifications to the Software not authorized by I.R.I.S. or for Software for which Customer cannot provide a sufficient proof of a valid license. I.R.I.S. may review and discuss with Customer any Designated Caller’s experience to determine initial eligibility. E. I.R.I.S. REMOTE MANAGED SERVICES (RMS)

1. Presentation

Some I.R.I.S.’ affiliates provide a range of modular and flexible remote IT services on a 24/7 basis, including monitoring, support, management, backup, hosting, archiving and even outsourcing services. These services are delivered using I.R.I.S. dedicated IT management facilities and teams, and may include Remote Monitoring, Remote Managed Services, Hosting and partial or full Outsourcing Services.

2. General description I.R.I.S. RMS Contract

To ensure as far as possible the continuous availability of the customer’s critical applications and processes, a solid and permanent systems support is mandatory. This combined with a pro-active monitoring of the customer’s environment and resources can assure the customer of the operational agility of his IT infrastructure.

There are also times that a customer wishes he had some additional manpower or expertise to help him with a certain project, or when the cutover date of an implementation is nearing. Finally, some customers wish to outsource their IT applications and/or databases, in order to allow them to focus on their core business and relying mainly on an external IT manpower and infrastructure as to safeguard and manage their IT sourcing and communication.

As one of the leading infrastructure optimization providers, I.R.I.S. leverages its organization and substantial knowhow in providing demanding customers with the appropriate service levels they need. This is where I.R.I.S. can help its customers.

The following areas can be part of an RMS contract (not exhaustive):

- Hardware Support
- Software Support
- Security and anti-virus support
- Day to day management
- Pro-active monitoring of HW/SW events
- Hardware maintenance and expansion
- Patch management of microcode/firmware/OS/applications/...
- Follow up of backup procedures
- Health Checks
- Capacity Monitoring & tuning

- Monitoring of resource utilization (disk, CPU, network,...)
- Act as a SPOC (Single Point Of Contact) towards hardware and software vendors
- Follow up of support calls with vendors
- Hosting of customer's website
- Partial (datacenter, applications, but no disaster recovery) or even Full outsourcing of customer's IT infrastructure, with or without relocation of the customer's hardware/software, on by I.R.I.S. ICT's or by the customer's owned environment
- Periodical reporting regarding system availability/resources/recommendations/...

In mission critical environments, the customer can't take any risks. However, every customer operates within different constraints of competencies, budgets, and criticalities. That is exactly why I.R.I.S. offers RMS in different categories (Silver, Gold, Platinum), depending essentially of the guaranteed availability, the time and the period of response in case of difficulties. Based on the documentation already provided by the customer, and on the wishes he has expressed, a tailored technical proposal has been made in Exhibit 1. This proposal could be adapted in the future, depending of the complementary information I.R.I.S. will gather and of the hardware and software that would need to be implemented as to achieve the expected objectives.

3. Pricing

The price of the services (including fees, assessment, reporting, interventions...) is described in the Transaction Document.

Services not included in the Transaction Document such as monitoring or remediation of end-customer errors or faults, waste of time due to a lack of access to the customer's premises or of availability of the customer's contact, or any activities other than those specifically noted in the Transaction Document based on time and material and will be charged at the then applicable I.R.I.S. tariffs, available on demand.

The customer will be invoiced monthly. Invoices must be paid in full within 15 days.

4. Components

All components (Hardware/Software) of the environment covered by RMS must be covered by a valid maintenance agreement with their respective manufacturer. Customer must have or obtain all necessary licences for any software used in the context of the RMS.

Every change or expansion of the managed environment can result in a change of the RMS agreement (and its terms, conditions, tariffs and offered services). Every change/reconfiguration of one or more components of the managed environment must be communicated in advance to I.R.I.S., to keep the inventory up to date and to avoid conflicts with the monitoring software

5. Liability -Insurance

As a professional service provider I.R.I.S. makes all possible efforts in order to achieve the contractual requirements, including the Service Level Agreement(s) (SLA) that could be agreed on after the implementation period, and all services will be provided according to the state of the art. However, considering the complexity of the IT environment, I.R.I.S.' obligations are always obligations of means.

As such, I.R.I.S. shall have no liability or responsibility when mechanical or telecommunication difficulties, weather conditions, acts of God, war, civil commotion, strikes or labour disputes, government regulation, law, rule or authority or any causes beyond its reasonable control prevent I.R.I.S. to carry out its services within the agreed period, nor for the resulting damage. As such, a permanent availability of the remote services cannot be guaranteed since a lack of access can be due to a number of variables including, but not limited to: maintenance, upgrades, excess of load or saturation by a third user in case of shared use of machines, and other circumstances beyond I.R.I.S. control. I.R.I.S. is not liable for any delays, failure, loss of use, or lost data related to Customer's inability to access the components of the environment covered by this agreement or the RMS during scheduled or unscheduled downtime. The efficiency of the RMS depends on the available or chosen software tools. For instance, remote alerts concerning dysfunctions of components have often to be interpreted by on-site enquiries under the control of the customer. Unless

the RMS covers also full backup services, the customer is sole responsible for backing up his data, network and programs.

I.R.I.S. will have no liability for loss or recovery of data or programs. Even in a full backup environment, the recovery of 100% of the data and programs and their restore can never be guaranteed.

I.R.I.S. can in no way be held liable when an SLA offered by a third party vendor (Hardware/software vendor, datacenter) is not met by this third party. All mentioned interventions in this document are RTO (Response Time Objective) interventions.

Non-urgent interventions will always be arranged in agreement between both parties, and at a time convenient for both parties. When I.R.I.S.' liability is duly evidenced, only the direct damage shall be indemnified, within the limits of the professional liability insurance contract covering I.R.I.S., with a maximum amount equal to the RMS invoiced during the last 12 months before the incident took place. Unless otherwise agreed upon, the customer shall insure at his costs all risks of damage to or by the components of the environment covered by this agreement, with the sole exception of the components owned by I.R.I.S. that are located in the I.R.I.S.'s premises.

6. Contract duration and termination conditions

Unless otherwise provided in the relevant Transaction Document, RMS is signed for an initial period of 36 months (3 years) as from signing and shall be renewed tacitly each time for periods of 12 months, unless a 6 months' notice is given by registered mail.

Each party may terminate the RMS for cause immediately and without court intervention upon written notice to the other party in the event that such other party fails to perform any material obligation, through no fault of the party initiating the termination, that remains uncured for thirty (30) calendar days following written notice to such party of the deficiency. In the event that either party (the "Insolvent Party"): (i) becomes insolvent, or institutes or has instituted against it a petition for bankruptcy; or (ii) executes a bill of sale, deed of trust, or a general assignment for the benefit of creditors; or (iii) is dissolved or transfers without adequate compensation a substantial portion of its assets to a third party; or (iv) a receiver is appointed for the benefit of its creditors, or a receiver is appointed on account of insolvency; then the Insolvent Party shall immediately notify the other party of such event and such other party shall be entitled to: (a) terminate this Agreement for cause immediately upon written notice to the Insolvent Party; or (b) request that the Insolvent Party or its successor provide adequate assurances of continued and future performance in form and substance acceptable to such other party, which shall be provided by the Insolvent Party within ten (10) calendar days of such request, and the other party may terminate this agreement for cause immediately upon written notice to the Insolvent Party in the event that the Insolvent Party fails to provide such assurances acceptable to the other party within such ten (10) day period.

In the event that either Party (the "Insolvent Party") is adjudicated bankrupt, this agreement will automatically be terminated with immediate effect.

7. I.R.I.S. Contact

All communications (including: complaints, escalating, providing information on changes of the infrastructure, scheduling interventions,...) must go through one of the (and only these) channels specified in the relevant Transaction Document (I.R.I.S. hotline, I.R.I.S. support website, I.R.I.S. support mail address).

8. Customer Contact

Customer's contact in charge with the relation with I.R.I.S., permanently available, and authorised to solve any issue occurring during the execution of this agreement, shall also be specified in the relevant Transaction Document (name and address, e-mail etc.)

F. OTHER PROFESSIONAL SERVICES TERMS

1. Presentation

I.R.I.S. provides also services to its customers in the area of consulting, analysis, system development, technical support and / or assistance as indicated in the task described in the relevant Transaction Document. For the duration of this Agreement, the Customer may order

new tasks (hereinafter referred to as "Task"), which will always be described in a Transaction Document and which will be signed by both parties.

2. Services

For the performance of the Tasks, I.R.I.S. will appoint competent staff and employees (hereinafter referred to as "Service Providing Person(s)").

I.R.I.S. retains the exclusive right to select the Service Providing Persons and to replace them – at its own initiative or at the request of the Customer - within the shortest possible time if their qualities are insufficient or if their behaviour endangers the proper completion of the Task.

3. Duration and Termination of a Task

The parties will agree on an estimated time and means required for the performance of the activities indicated in the Task. The duration of a Task and/or the number of Service Providing Persons required will be determined by I.R.I.S. on this basis. The fact that I.R.I.S. is unable to meet this estimate may not in itself be seen as non-compliance with its obligations.

The end date of the Task is determined based upon the starting date and the estimated duration of the Task. Except in the case of cancellation by one of the parties via registered letter or a letter with receipt at least six (6) months prior to the expiry date, the Task will be tacitly renewed for periods identical to the initial duration of the Task.

4. Location and conditions of implementation

The Services will be provided at the address of the Customer or at the premises of I.R.I.S.. The Customer agrees to make available to I.R.I.S., free of charge, at least the same work areas, facilities and services as those it would allocate to its own personnel for the performance of similar work.

The Customer will give no orders to the Service Providing Persons and inform I.R.I.S. immediately concerning any difficulties it might have with the Service Providing Persons.
